

Waltham Education and Beyond Foundation

Apple Award Program

The Apple Award Program is a meaningful way for parents and students to show their appreciation to a teacher or staff member through a gift to the Waltham Education and Beyond Foundation in their name. Your donation supports grants to educators in the Waltham Public Schools to fund innovative projects and enhance learning in the classroom. Like all donations to WEBF, your contribution is tax-deductible.

Your honoree(s) will receive a certificate that includes your child's name and a personal message (optional), as well as a magnet or decal to display. When you give an Apple Award, you are paying tribute to your child's teacher(s) while simultaneously supporting innovative educational programs.

Give the gift of gratitude to all of the heroes in your child's school this year, including their teachers, custodians, and nurses.
